

WELCOME TO ERACON10 - VIENNA

PRESENTATION OF THE 100% WEB-BASED INTERNATIONAL OFFICE MANAGING SOFTWARE

The standard software for the web-based administration of
education cooperation and exchange programs

- „...increasing numbers of mobilities...”
- “...we want to offer our students more services...”
- „...efficient and comfortable management of international education exchange programs will become more and more important for International Offices in the future...”

- „...Mobility-Online causes a significant increase of efficiency and simplification in management of all education exchange programs...“
- „...without the solid software assistance in the form of Mobility-Online an enlargement of mobilities for our university would have been unimaginable ...“

MOBILITY-ONLINE – The web-based Application for

- ❶ **All exchange programs**
Life-Long-Learning (ERASMUS, Leonardo, Comenius, Grundtvig),
Ceepus, Joint Studies, FreeMover, Nordplus ...
- ❷ **Any bilateral agreements**
- ❸ **International Offices**
- ❹ **Students, teaching staff and internal staff**
- ❺ **Incomings and Outgoings**
- ❻ **Integrated budget and finance management**

THREE PLAYERS – ONE ARCHITECTURE

● **Mobility-Online**

the web-based application for managing International Offices of HEI's

● **Placement-Online**

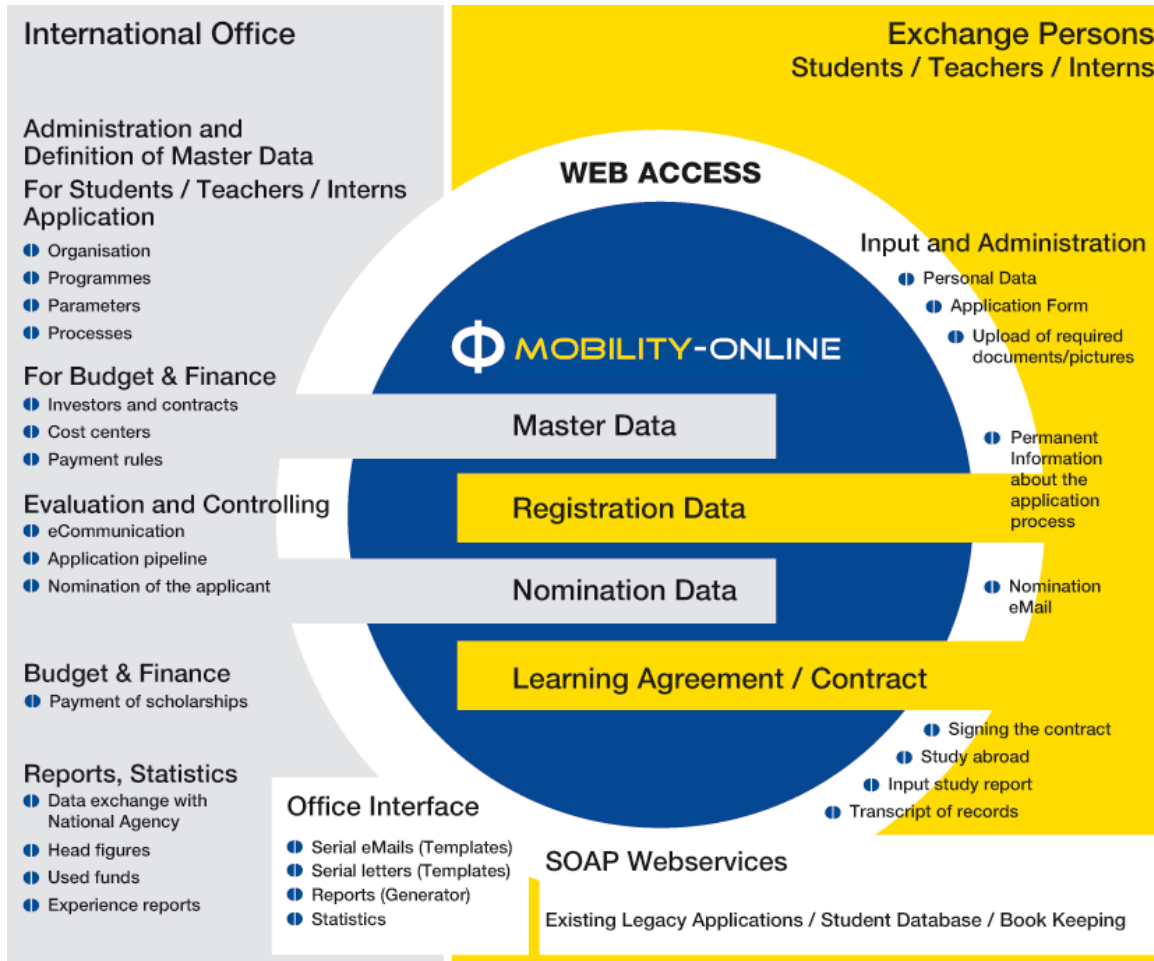

the web-based application for managing placement mobility

● **Budget-Online**

the web-based application for managing processes of National Agencies and consortia

OVERVIEW

European Commission
Statistics, Reports

MOBILITY-ONLINE – Features, Tools and Goodies

- Standardized application process
- Real time overview about all applications
- Customizable application work flow for each exchange program
- Digital archive – upload / download of documents, pictures and videos (DMS)
- Integration of MS Office/Open Office
- Serial mails, Serial letters using own corporate design
- CMS for FAQ, feedback and interactive help
- Designable output for reports (pdf,doc,xml,xls,csv,ascii)
- Individual permissions on records, programs and roles
- Data exchange with third party systems

MOBILITY-ONLINE - Saves Time and Money

- By easier handling of permanently increasing incomings and outgoings with existing resources
- By digitization of incoming and outgoing paperwork and signatures
- By using mass mail functions with plain text or predefined mail patterns including attachments
- No additional hardware or software investments

APPLICATION PIPELINE

Survey of applications
